

# In Our New Era

Words and Music by: Cameron Moten

## Lyrics:

Lights Camera Action  
We're live today  
Chatting with my friends  
Got a lot to say  
So much on my mind  
Things I want to do  
Reinvent myself  
But I'm staying true

I'm Dreaming big  
I'm Living loud  
I know I'll make  
my Mama Proud  
And as a find myself  
You know I'll sing it out

**We're in our new Era**  
**This is who we are**  
**When we look in the mirror**  
**We see superstars**  
**I'm starting to shine**  
**With my friends by my side**  
**And the picture gets clearer**  
**Cause we're in our new Era**

In my music era  
I feel the vibe  
In my friendship era  
I find my tribe  
In my confident era  
I find my voice  
Stepping into who I am  
I can make my choice

I'm Dreaming big

I'm Living loud  
I know I'll make  
my Mama Proud  
And as a find myself  
You know I'll sing it out

**We're in our new Era**  
**This is who we are**  
**When we look in the mirror**  
**We see superstars**  
**I'm starting to shine**  
**With my friends by my side**  
**And the picture gets clearer**  
**Cause we're in our new Era**

*I can grow and still be me*  
*Every Era shapes who I will be*  
*I can change cause I am free*  
*Free to find my identity!*

**We're in our new Era**  
**This is who we are**  
**When we look in the mirror**  
**We see superstars**  
**I'm starting to shine**  
**With my friends by my side**  
**And the picture gets clearer**  
**Cause we're in our new Era**
